COMPANY PROFILE
2026

Mr. Utkarsh Shukla
(PROGRAM COORDINATOR)

A major challenge in the industry is that of lack of competency in the work. Competency and skills play a vital role in enhancing productivity, improving performance and also saving time.

In today's era, every organization seeks and recruits only specific skill oriented professionals .Unskilled/Incompetent people have no place in today's work environment

'Training is an investment not an expense'

The only way to overcome this hurdle, is attending trainings and workshops, learning and implementing it in our work. Trained and skilled professionals are always a priority for every organization.

We at ICLM, help individuals as well as organization to overcome this hurdle. We take initiatives parallel to the government and regulatory bodies for the safe working practice and accident free environment through the customized training and certification programs. These programs have been designed after meeting and consulting famed professionals and individuals of the industry. These are very impactful in developing a person's skills, competency, capabilities and behavior.

Our vision to bring a revolution in transforming the construction industry learning will surely help all the organizations in creating a more developed, skilled and able workforce In today's era, every organization seeks and recruits only specific skill oriented professionals .Unskilled/Incompetent people have no place in today's work environment

Mr. Anupam Shukla
(President)

Skilled & Competent work force in an organization improves productivity, profit and performance. As a result, skilled and competent professionals are in high demand in industries.

Government and regulatory bodies are also working closely with Industries to create a better and safer work place, reduce loss of life, property and time due to any unsafe act or situation at work places.

In accordance with the legal compliance mentioned in Indian Factories Act-1948, Sec 111 A (Right to Workers), supports and insists training of working professionals to enhance safety and performance.

“विद्या लाभस्य कारणम्” (Education For Benefits)

Our core philosophy to benefit organizations and trainees both, learning programs are aligned with the Industries to develop required Skilled & Competent professionals.

We believe in empowering skilled professionals to remain competitive for hiring and maximize their earnings with changing time of technology Let us make learning more beneficial.

QUALITY POLICY

At ICLM we are committed to deliver quality education to enhance skills, competency and behavior of trainees through our customized & standard learning program

VISION

To Enhance Skills, Competency and Behaviour Of Professionals Through Our Training Programs

MISSION

- To Adopt Technology In Our Trainings & Assessment.
- To Develop Technologically Advanced Training Modules Required In the Industry
- Continuous Review & Upgradation of Program.
- To Adopt National And International Standards In Designing And Executing Training Programs
- To Provide Trainees A Progressive Career Path

LEGAL COMPLIANCES & IMPORTANCE

In order to reduce time loss, accidents, or injuries, it is important to follow safety guidelines as prescribed in national and international standards. The Factories Act 1948 has a provision in Section 111A as the Right to Workers, insisting on the training of workers by occupiers.

The Building and Other Construction Workers Act 1996 Part III (Safety and Health) Chapter IV Rule No. 39 (arrangements for training of building workers, trainers, supervisors, or other persons engaged in the construction work) also insists on the deployment of trained and skilled workers at the site to perform construction activities.

Most of the revised International Management Standards, like ISO 9001:2015 (QMS), demand skill and competency enhancement of employees at all levels as a routine process for sustainable growth of the organization.

ZED Ratings of an organization are assessed on the basis of parameters which include Training, skills, and competency. Aiming to empower with knowledge, skills and awareness in workplace safety, health and environment associated with industries, MSBSVET approved us to initiate courses for students
